Install Peace Of Mind

Whether you install the ultra-dimensional Timberline Ultra HD® Shingles or the ever-popular Timberline HD® Shingles, you'll be getting all the benefits that only a genuine Timberline® roof can provide!

Install To **Protect.**

When you install GAF Timberline® High Definition® Shingles with **Advanced Protection®** Shingle Technology, you're getting the very best combination of weight and performance that modern manufacturing technology can deliver. In fact, you won't find a shingle that surpasses Timberline® on:

- ✓ Toughness
- ✓ Wind uplift resistance
- ✓ Flexibility
- ✓ Fire resistance

That's why every Timberline® High Definition® Shingle comes with GAF's transferable Lifetime Ltd. warranty*—for your peace of mind!

*See GAF Shingle & Accessory Ltd. Warranty for complete coverage and restrictions. The word "Lifetime" refers to the length of coverage provided by the GAF Shingle & Accessory Ltd. Warranty and means as long as the original individual owner(s) of a single-family detached residence [or the second owner(s) in certain circumstances] owns the property where the shingles are installed. For owners/structures not meeting the above criteria, Lifetime coverage is not applicable.

Install To **Invest.**

Your roof can represent up to 40% of your home's "curb appeal." Timberline® High Definition® Shingles not only protect your most valuable asset but also beautify your home for years to come—and add to its resale value.

Recently, an independent research firm surveyed U.S. homeowners about the brand of architectural shingles they preferred based on appearance. The result: **more homeowners preferred the look of Timberline® High Definition® Shingles** to the other leading brands.¹

In fact, according to a recent survey conducted by the National Association of REALTORS®, you can increase the value of your home by an average of 5% with a new Timberline® roof!²

So why settle for anything less than a genuine Timberline® roof?

¹Based on a 2014 survey of U.S. homeowners commissioned by GAF comparing the appearance of two popular Timberline® High Definition® Shingle colours to the comparable colours of other leading brands.

²2013 National Association of REALTORS® survey commissioned by GAF of REALTOR® Appraisers and Non-Appraisers in the U.S.; response based on REALTOR® Appraisers that have had professional experience buying or selling a home with Timberline® Shingles in the three years preceding the survey and felt they could provide an estimated value increase for a home with a Timberline® roof as compared to a home with a basic three-tab shingle roof.

Weathered Wood

Install To Impress.

Timberline® High Definition® Shingles are unlike any others, thanks to our proprietary shadow bands. Each shadow band is applied using a sophisticated, computer-controlled “feathering” technique. When combined with our randomly blended top layer, it results in a shingle with exceptional depth and dimension—**and a striking look unmatched by any other brand.**

But don't just take our word for it. See for yourself. When you compare Timberline® High Definition® Shingles to typical architectural shingles, it's easy to see why they'll look sharper and more beautiful on your roof—while enhancing the resale value of your home.

Whatever you're looking for, there's a Timberline® Shingle to fit your taste and your budget.

See the difference...

The colour blends on Timberline® High Definition® Shingles are sharp and well defined—to give your roof maximum dimensionality and depth. Colour shown: Hickory

Timberline Ultra HD[®]

Shingles

Our thickest, most dimensional Timberline[®] Shingle.

Timberline Ultra HD[®] Shingles will cost you just pennies-a-day more than standard architectural shingles. In return, you can enjoy a thicker, ultra-dimensional wood-shake look for your roof.

Extra-thick layers make Timberline Ultra HD[®] Shingles up to 53% thicker than standard architectural shingles for a natural dimensional beauty that you'll notice and appreciate.*

(Not to mention they can increase the resale value of your home!)

*Comparison refers to Timberline HD[®] Shingles. Thickness varies by plant; see actual shingles for comparison.

TIMBERLINE HD
LIFETIME HIGH DEFINITION[®] SHINGLES

WEATHERED WOOD

Weathered Wood is truly the perfect neutral colour. Straddling the line between warm and cool tones, this shade complements a broad range of hues—especially clay, one of the most popular colours for home exteriors. Blending beautifully with nature, this colour also works well paired with sage, cream, ivory, and all manner of beiges.

“We love our roof! Our area receives quite a bit of wind, rain, and storms in the spring. It is wonderful to no longer be concerned with shingles flying off the house.”

—Tracy Christie

S L A T E

(Regional)

Slate is a cool gray with a beautiful green undertone—exactly like real slate. This shade coordinates well with both grays and greens on the cool side as well as with white, cream, and ivory exteriors. A roof done in Slate will add a warm and inviting feel to any home.

“The High Definition® (Timberline®) Shingles really added to the look of the house. Knowing the product is backed by a company like GAF is comforting.”

—David Cusumano

NOTE: It is difficult to reproduce the colour clarity and actual colour blends of these products. Before selecting your colour, please ask to see several full-size shingles.

BARKWOOD

Barkwood is a popular neutral brown colour that coordinates well with most other warm colours, such as beige, taupe, cream, gold, and yellow. Its nature-based tone emulates wood, fitting in well with natural surroundings. You'll love the way this colour enhances the overall tones of your house.

“I absolutely love the look of my new roof and how it stands out among my neighbours. They have begun to follow my lead and now our little subdivision is being transformed.”

—Joann Steers

C H A R C O A L

Charcoal is the most neutral of all shades, making it versatile enough to use on your roof regardless of your home's style. This cool-toned colour works wonderfully with home exteriors that feature blues, grays, or whites; you'll also find it pairs well with yellow, gold, sage, or green.

*“I am the toughest customer
you will ever find anywhere.
Outstanding is an understatement.”*

—Patrice McDonough

NOTE: It is difficult to reproduce the colour clarity and actual colour blends of these products. Before selecting your colour, please ask to see several full-size shingles.

HICKORY

Hickory is an inviting brown shade that has the added element of a red undertone, giving it a rich look. It's an excellent companion to both brick and stone homes that have shades of red or terra cotta. You'll also love how this colour looks on homes with warm neutrals of brown and beige as well as with yellows and golds.

GAF

“It looks GREAT! My wife loves the colour, and I love the Lifetime ltd. warranty.”

—Kevin McGrath

NOTE: It is difficult to reproduce the colour clarity and actual colour blends of these products. Before selecting your colour, please ask to see several full-size shingles.

SHAKEWOOD

Shakewood is an appealing blend of browns, tans, and gold providing a warm radiant colour. It pairs equally well with neutral beige and clay tones for an understated look as well as with deeper jewel tones for a welcome change of pace.
