Cambridge

LIMITED LIFETIME ARCHITECTURAL SHINGLES

Cambridge is IKO's most popular shingle among contractors and discerning homeowners alike. Cambridge shingles add architectural interest that boosts your home's curb appeal. With their dimensional profile and deep shadow bands which mimic the look of wood shake construction, they can create a high-end designer look for your home, all at an affordable cost.

Choose from a huge array of colours to coordinate perfectly with your home's style; whether rustic or urban, traditional or modern. Even if you live in a maritime climate or area of high humidity, you can enjoy having a gorgeously coloured roof free from streaks and discolouration.

Cambridge premium architectural laminated shingles come in IKO's special Advantage size. They're bigger and heavier than most competitors' products of comparable quality. Constructed with one of the heaviest mats in the industry for their class, Cambridge is engineered to withstand the elements for years, making them among the most durable shingles you can buy.

When you choose Cambridge, your new roof will keep on looking as great as it performs.

Everything You Need in One Roofing System

Shingles alone are sometimes not enough to protect your home. IKO has developed a superior multi-layered roofing system incorporating our industry-leading products.

A complete roofing system ensures your roof's optimum performance.

1. Eave Protection - *GoldShield, ArmourGard, or StormShield Ice & Water Protectors*

IKO's Ice & Water Protectors provide a second line of defense against water penetration due to ice dams or wind-driven rain and the costly damage it can cause. This product is also strongly recommended for sealing around vents, low pitch areas, ridges, hips, rake edges, chimneys, dormers, vent stacks, and skylights.

2. Underlayment - *RoofGard-Cool Grey or StormTite® Underlayment*

Use our innovative RoofGard-Cool Grey or StormTite® synthetic underlayment for total deck protection.

3. Roof Starters - *Leading Edge Plus Starter Strips*

Fast, easy and convenient. IKO's Starter Strips are already cut to size saving valuable time during the installation of the first course of shingles. Compatible with all existing IKO Shingles, Leading Edge Plus includes a sealant strip at the bottom edge allowing for a tight seal.

4. Ridge Cap Shingles - *Hip & Ridge Plus or Ultra HP™ High Profile Ridge Cap Shingles*

Ridge cap shingles are required where roof planes meet, and provide additional protection along these high stress areas of the roof, enhancing your home's aesthetic appeal by accentuating the roof line.

Shingle Swatches and House Photography shown are as accurate as modern printing processes allow. Shingle swatches shown do not fully represent the entire colour blend range of the shingles. To ensure complete satisfaction, please make your final colour selection from several full size shingles and view a sample of the product installed on a home. Be sure to look at the colour sample of all material in natural sunlight, at different times of day to ensure that your colour choices are complementary.
