

A properly designed roof involves a coordinated system of products. To make an Enhanced Wind Warranty available and support the system, Malarkey offers a family of roofing products that ensure quality, protection, and security.

Our complete line of laminate shingles and shingles with Flexor™ SBS polymer modified asphalt technology are eligible for Malarkey's Enhanced Wind Warranty protection.*

To qualify for Malarkey's Enhanced Wind Warranty, one of Malarkey's qualifying shingles§ must be installed with Smart Start™ starter shingles and either of Malarkey's hip and ridge products.

I. SMART START™

Malarkey's Smart Start™ starter shingles are manufactured with exceptional sealant for increased wind protection at the eave and rake edges. Holding fast the leading edge of the first course of shingles, the dimensions of Smart Start™ starter shingles extend up beyond the fastening point of the first course of shingles, providing maximum protection against moisture migration.

Hip and Ridge Products:

II. HIP AND RIDGE SHINGLES

Malarkey offers two different profiles to complete your roof's appearance: high-profile EZ-Ridge™ (8" width) and EZ-Ridge™ XT (10" width), as well as traditional low-profile RidgeFlex™ in 10" and 12" widths. All of Malarkey's ridge products feature the Scotchgard™ Algae Resistant Shingle Protector from 3M and are made with Flexor™ SBS polymer modified asphalt technology.

For added system protection, Malarkey supports the roofing system with a variety of performance driven underlayments:

RIGHT START™ UDL

A durable fiberglass underlayment barrier for your roof deck, our Right Start™ UDL, manufactured with Flexor™ SBS polymer modified asphalt technology, provides watertight protection. Performing in all weather conditions for over 25 years, our UDL is the right start to any steep slope system.

ARCTIC SEAL®

Our Flexor™ SBS polymer modified self-adhering underlayment provides added protection against leaks to your roof deck caused by ice damming. Arctic Seal® is also useful as a flashing membrane in areas susceptible to leaks such as valleys and roof-to-wall transitions.

SECURESTART™

Malarkey's SecureStart™ is a lightweight synthetic underlayment engineered to perform in all weather conditions -40°F to 240°F (-40°C to 115°C). Anti-skid surface technology securely holds the underlayment in place, assuring steep slope projects get done quickly and safely.

*Please refer to the chart on the back page for a complete list of our qualifying shingle products.

ENHANCED WIND WARRANTY PROTECTION

MALARKEY OFFERS A FAMILY OF QUALITY SUPPORTING PRODUCTS FOR YOUR ROOF.

FROM YOUR DECK TO THE RIDGE, OUR PRODUCTS PROVIDE MAXIMUM PROTECTION FOR YOUR HOME.

ENHANCED WIND WARRANTY

When installing Malarkey shingles, use the complete Malarkey steep slope roofing system and qualify for Enhanced Wind Warranty protection.

An Enhanced Wind Warranty roof system must include:

1. Malarkey Smart Start™ starter shingles
2. Either of Malarkey's hip and ridge products: EZ-Ridge™ or Ridgeflex™**
3. Increased fastening of shingles, including Smart Start™, using 6 properly-spaced nails (9 nails for the Windsor®)

Malarkey's Enhanced Wind Warranty provides the ultimate in protection and security.

* Malarkey shingles featuring Scotchgard™ Protector must be installed with EZ-Ridge™ (8", 10") or RidgeFlex™ (10", 12") hip and ridge products, which feature Scotchgard™ Protector, to receive Malarkey's full 20-year Algae Resistant Shingle warranty. The Alaskan® featuring Scotchgard™ Protector can be substituted as hip and ridge shingles, in conjunction with Malarkey shingles featuring Scotchgard™ Protector, to receive the full Malarkey 20-year Algae Resistant Shingle warranty. Scotchgard and the Scotchgard logo, including the plaid design and 3M logo, are all trademarks of 3M.

**Some contractors adapt roofing shingles to use as hip and ridge shingles. Use of The Alaskan® as a hip and ridge shingle will apply towards the Enhanced Wind Warranty. Dura-Seal™ shingles used for hip and ridge will not qualify toward an Enhanced Wind Warranty.

† See Limited Wind Warranty & Enhanced Wind Warranty sections of the Shingle and Accessory Warranty for details.
